✓ Novel appearance design

Digital Electric Paper Cutter

Model: E330s

The E330S A4 Format Desktop Digital Electric Paper Cutter is a next-generation solution for offices, schools, print shops, and creative professionals who need precision, efficiency, and safety in a compact form. Unlike traditional manual or semi-electric cutters, the E330S is fully digital and electric—meaning you simply set your cutting dimensions through the control panel, and the machine handles the pressing, feeding, and cutting process automatically.

With its maximum cutting size of 330 × 330 mm and ability to slice through up to 40 mm of paper thickness, it delivers consistent results whether you're trimming a single sheet or cutting a heavy stack of documents. Equipped with an infrared photoelectric protection system that constantly monitors the cutting area and maintains a compact footprint, allowing it to fit comfortably on a desktop without compromising on power.

Product Specifications

Max. Cutting Size	330*330mm/12. 99*12. 99 inch
Min. Cutting Size	50mm/1. 96 inch
