

Digital Creasing Machine

DX-8603A

Product characteristics:

Automatic paper feeding with upper suction
7 inch color screen

Design of easily replaceable tool

High precision programmable indentation position

Easy to understand operation

Standard horizontal dotted line blade and optional longitudinal dotted line blade

Automatic correction of errors caused by paper thickness

The indentation depth and skew are adjustable

SPECIFICATIONS:

Model	DX-8603A Digital Creasing Machine
Feed Size	210x285mm-330x650mm
Paper Thickness	60-400 g / m² (indentation) 0.1-0.20mm (horizontal dotted line knife)
Feed Capacity	60mm
Paper Type	Copperplate paper, coated paper, etc.
Indentation width	1.0mm, standard configuration
Number of indentation/dotted line	0-32 times
Speed	2400 sheets/hour (A4 / one indentation)
Accuracy	±0.3mm
Operation Interface	LCD
Feed Type	Suction up automatic feed
Output capacity	60mm
Power supply	220V / 50 Hz (110V / 60 Hz optional)
Machine weight	69kg
Package Size	640x630x540mm
Standard accessories	Transverse indentation knife and transverse dotted line knife
Options	Horizontal dotted line knife, longitudinal dotted line knife, longitudinal indentation knife
